Description

We present to your attention a new investment project from one of the well-known developers of Alanya. The residential complex will be in the city's heart, 500 meters from the coast, within walking distance of the city's infrastructure.

The residential complex will comprise two nine-story blocks. A summer swimming pool, a Finnish sauna, a Roman steam room, a fitness room, a playground, a recreation area and a barbecue, video surveillance, and a security system will operate on the territory.

For sale are apartments and penthouses with a layout of 1 + 1 and 2 + 1, with a total area of 60 m² to 177 m². All apartments are rented with high-quality fine finishes, complete bathrooms, and kitchens.

Completion of construction is scheduled for summer 2024. From the developer, there is an interest-free installment plan until the end of construction.

Acquisition of real estate under construction is the most profitable solution - you can choose the floor, view, layout, order an individual design, heat floors, and combine several apartments.

Life in the center of Alanya will give you bright and unforgettable moments. Here you will find many places for leisure activities, as well as a developed urban infrastructure for a comfortable life. Alanya is a place that falls in love literally from the first minute. Having arrived here once, you will want to return.
