Description

1. Alanya is a place where the dreams of thousands of families about a cozy home on the Mediterranean coast come true. And we build so that your dreams come true in a bright reality!

Mahmutlar is a district in the city of Alanya, located 8 km from the center. Mahmutlar today is already a fairly developed region, but it also has brilliant prospects for the future. It will be comfortable to spend a long vacation here or move to live permanently. There are public schools, private kindergartens, and private clinics with Russian-speaking doctors in Mahmutlar, and urban transport is very well developed. Many children's parks are more modern than the center. There are also modern cafes, children's cafes, shops with eco-products, and shops with our products in Mahmutlar. Many chain stores have already opened in Mahmutlar: Waikiki, Sok, A101, BIM, and big Migros. For the arrangement of apartments, there are furniture stores, hardware stores, and markets where you can buy everything for the home. On Tuesdays and Saturdays, there is a farmer's market where locals and tourists are very fond of buying fresh vegetables and fruits, meat, freshly caught fish, and sour-milk products.

Our project is located 2.5 km from the sea, but thanks to the transfer to the sea, this journey will take only 3 minutes, but from this location, a wonderful panorama of the sea, mountains, the whole of Alanya, and of course the most important attraction - the fortress of Alanya opens up.

In the closed territory of the residence, there will be absolutely all the infrastructure that meets all the requirements of modern life, where you can relax from everyday worries and take care of your health. Outdoor and indoor swimming pools, a fitness center, a large SPA area, and various recreation areas for adults and children - all of this will be part of your home and part of your daily life!

In the main building of the complex, there is an indoor heated swimming pool, children's playroom, relaxation room, SPA area with Roman and Finnish saunas, Turkish hammam, relaxation area, and massage rooms. For cars on the territory of the complex provide indoor and outdoor parking. The halls and lobbies of the complex correspond in their level to the interiors of high-class hotels.
