- ✓ Private territory
- ✓ Outdoor parking
- ✓ 0% installment
- ✓ Elevator
- ✓ Playground
- ✓ Generator

Description

The project is in Kestel, which is the most preferred area of Alanya for foreigners with its beaches and nature.

The Kestel area has recently been chosen by foreigners. It is a university town.

Kestel is a beautiful and well-maintained seaside town with a developed social, commercial, and transport infrastructure.

There are many places for walking, many restaurants, and cafes, shops and supermarkets, and many places for sports outdoors. There are also banks, exchange offices, pharmacies, private and public health institutions, schools, and a kindergarten. We will be happy to share with you more detailed information about the project and help you choose the perfect apartment for your life! Contact us with your questions or requests!

The residence is being built on a total area of 1360 m² and is in the very center of a large and very popular area of Alanya

– Kestel, 200 meters from the coastline. The complex will have bright and modern architecture, high-quality building materials, convenient apartment layouts, and, of course, a rich internal infrastructure.
