## Description

A cozy 5-storey residential complex is located in Kestel - in the microdistrict, which is located between Mahmutlar and Tosmur and at the same time is strikingly different from all other areas of Alanya. Kestel lies at the foot of the Taurus Mountains, from which a light breeze blows in the evenings, creating coolness in the hot summer months. And in winter, it is here that the peaks are covered with snow, creating the illusion of an alpine village.

Buying a house or apartment on the first coastline is a real dream for many. Beautiful views of the sea panorama, sunny weather, attractive resort infrastructure - all these are the undoubted advantages of the residential complex "My Holiday Home", located 150 meters from the beach.

Coastal facilities are usually conveniently located close to all necessary infrastructure. Within walking distance are cafes, restaurants, a good promenade with gazebos, benches and a bike path. The residents of the complex will also be pleased with the availability of educational institutions: a school, a kindergarten, a higher educational institution - Alaaddin Keykubat University - everything is here so that your daily life proceeds in a leisurely Mediterranean rhythm.

The infrastructure of the complex includes many amenities for the whole family:

- a huge pool for you and a children's pool for the little residents of the complex
- gym for active pastime
- many green spaces
- protected territory of the complex

On each floor of the complex there are 2 apartments of the following layouts: 1 + 1 (45 sq.m.), as well as duplexes 2 + 1 (80 sq.m.). The cost of apartments starts from 145 thousand dollars.
