Description

Villas in an eco-location with a built-in smart home system and solar panels for energy saving a small complex consisting of 10 villas, a coffee house with a fitness on the second floor and a playground on the first floor, 24 hour security.

In the villa: spacious and bright interiors, designed to make the most of natural light. Open plan living and dining areas. Swimming pool and lots of greenery around the villa.

Feature: the developer can install an additional "smart home" system and solar panels to save electricity. The owner can choose to assign additional living space - it can be a sala on the second floor or a private office.
