## Description

### Description of the apartment:

- 1 bedroom
- area 76 m2
- 5th floor

The complex consists of two seven-story buildings in traditional Bulgarian style, each of which has two separate entrances and elevators.

**Situated in a gated area, it offers a wide range of amenities, including a swimming pool, sunbathing area, well-kept walkways, year-round security, underground parking, children's playground, restaurant and bar.**

Families living in the complex enjoy a comfortable life all year round thanks to the proximity to all necessary facilities: schools, kindergartens, post offices, public transport, beauty salons, medical centers, supermarkets and other amenities.

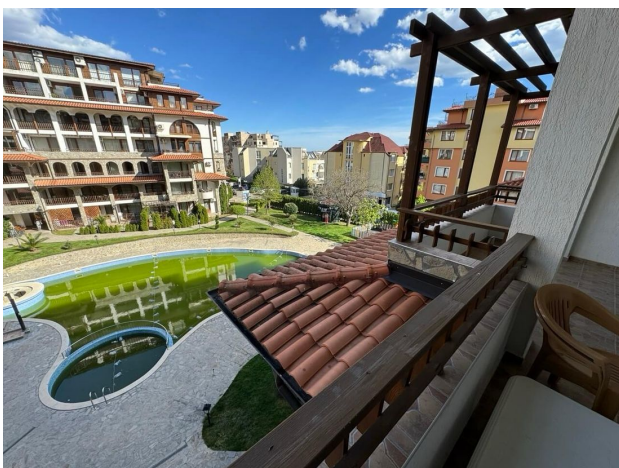

The combination of mountain climate and sea air makes St. Vlas a particularly pleasant place to live even in summer, when it remains cool and fresh.

The nearest airports in Burgas (Sarafovo sq.) and Varna are within easy reach: 40 and 100 kilometers respectively.

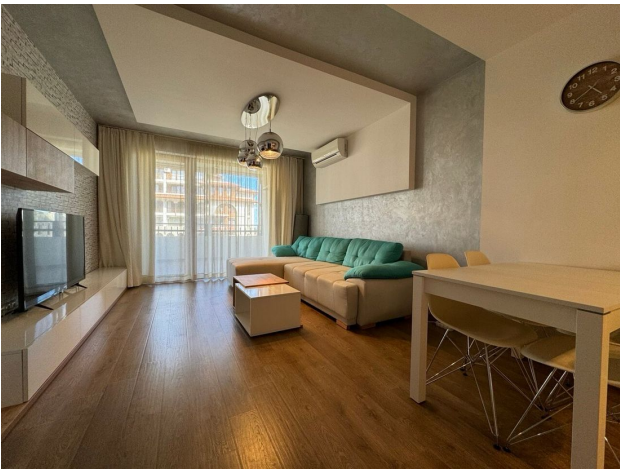

This provides convenient conditions for traveling and communicating with family and friends from other regions.
