Description

We present a unique commercial project located on one of the most prominent streets in the Avsallar district — Ataturk Street.

The plot is situated in an area of active residential development, making it an ideal location for businesses with high foot traffic and great potential.

The project consists of three blocks:

- **Blocks A and B** include spaces designed for commercial use.
- The ground floors of both blocks are occupied by spacious retail shops, while the upper floors feature offices and duplex offices, suitable for various types of businesses.

A wide range of spaces is available:

- **Shops:** from 69 m² to 310 m² (21 options in total).
- **Offices:** from 60 m² to 449 m² (26 options in total).

The project's flexible pricing system consists of four stages.

The cost of the spaces will vary depending on the stage of construction, providing an excellent opportunity for investors to purchase properties at earlier stages at more favorable prices.

The project combines a strategic location, a variety of commercial spaces, and a flexible payment system, making it an attractive choice for both businesses and investments.

Initial payment: 30%.
